2. I would like to write a review about the favorite website of mine - Igraha.com.

First of all I'd like to write about the purpose of this website. Here you can download any game you want for free! And I have never ever seen as easy process of downloading as I've seen on this website. You need to click onto button "download" and everything is ready!

The design of website is pretty simple, but nice. You can see a lot of pictures of other games, so you can find something else to play! In the end of the site you can leave your comment or read commentaries of other users.

Unfortunately, this website doesn't have any sound, but it has some interesting and awesome features! In the end of a page you can find a survey, where you can rate this or that game, and I find it quite cool! Another well feature is about a fact, that you can watch some guides for games, right on this site!

But, never the less, it has got an awful and horrible minus - the lack of administrators. Because of this terrible fact you can see a ~~lot~~ plenty of bizarre images and texts in comments.

In conclusion I'd like to say that each site has its own pros and cons, including this website. But even with taking these facts into account - I'm fond of this site!
