Writing

"Talent is cheaper than table salt. What separates the talented individual from the successful one is a lot of hard work." What is the meaning of these ~~words?~~ words? I suppose, this quote means that it is not enough to be born talented when you want to achieve dizzy heights in something. You have to work hard without complaining about difficulties to reach success.⁶³

In my opinion, the main difference between a person who became successful because of their talent and a person who reached wealth through the hard work is that the non-talented one did everything by themselves, when the first person was given naturally. This fact makes people respect talented people less than hard-working ones.⁵³

There are lots of examples from literature that can illustrate my reasons. In a novel "Memories" there are two girls who both dream about being actresses in the future. But one of them has an aptitude for it, and the second one is blind.⁴⁴

Their life paths are shown well, and in the end the blind girl becomes the highest-paid actress of all time because of her demanding work.

To sum up, I believe that hard work pays off more than a natural talent and people who may not have any abilities at first, but then manage to become successful and wealthy make me believe

that everyone have a chance.⁶⁶ 226 words
